To Mr Fraser Nimmo
MBO UK

Subject: REACH Regulation

Dear Mr Nimmo,

In accordance with REACH Regulation, MBO is considered as downstream user. Thus, we do not need to carry out the registration procedures.

Raw materials used in our preparations are not imported but bought in France.

In addition to that, we contacted our suppliers in order to know if they have pre-registered and if they intend to register the substances we buy to them, if concerned.

All our suppliers confirmed to us that they have registered on time the substances contained in the preparations we supply to you, if concerned.

Concerning uses descriptors, we have given the following codes to our suppliers:

- Sectors of uses = **SU3** et **SU16**
- Product categories = **PC7** et **PC38**
- Process categories = **PROC4**, **PROC5** et **PROC25**
- Article categories = **AC3-1** and **AC3-3**
- Environmental release categories = **ERC3** et **ERC8a**

Concerning SVHC (=Substances of Very High Concern), according to our knowledge and the knowledge of our suppliers of raw materials, our products “**Lead-free and cadmium-free products**” **do not contain none of the SVHC** of the « REACH SVHC Candidate Lists », published by ECHA on 28th October 2008, 13th January 2010, 18th June 2010, 15th December 2010, 20th June 2011, 19th December 2011, 18th June 2012 and 19th December 2012, 20th June 2013, 16th December 2013, 16th June 2014, 17th December 2014 and 15th June 2015, 17th December 2015, 20th June 2016, 12th January 2017, 7th July 2017, 15th January 2018 and 27th June 2018 available on the link below:
